

I went to this site to down load a free design and fell in love with this quilt. I decided to order the cd of designs and make this quilt.....well it came with no real instructions and a few pictures. I started to show the squares to my classes and everyone wanted to make it and over 25 people have signed up for the classes and are well on their way of making their own heriloom.I am making one for all my grandchildren and sons. I am working on number 3 as of now with 2 more to go. Being a beginner quilter I am learning a lot. Thanks for all the girls at Cotton Stitches. Thanks everyone Judy Smock
