

Back in 1995 when I retired, I took this class in Washington. The pattern had 2 pictures for each month. By June, I was tired of making 2 blocks so I started making 1 until I got to the end. I put it away and would make a block and put it away. A friend asked me several times when was I going to finish it. I said "When you make me the December block, I'll finish it." She did, and I finally finished it after 12 years.
