

I bought this kit from My Quilt SPace the last year we had our show at PARC. I admired the sample and thought that this was a design that would be right up my Mother's alley. She is very partial to prints from the 30's. This quilt was hand appliquéd and hand quilted - a first for me on both techniques. At the October meeting, I will reveal to her that it was made for her. But, SHHHH!!!!!! She doesn't know it yet!!
